Stainless steel drinking trough with speed drain

Description :

- Stainless steel water trough, 100 cm or 200 cm long with speed drain and float valve.
- Optimal water intake thanks to an easy access to plenty of clean water.
- Trough fitted with a 160 mm large outlet for easy cleaning, which can be closed with a heavy polyester concrete plug.
- Also available in galvanised steel, wall mounting or with posts.
- Can be connected to a heating/circulation unit.
